Tidewell Insurance - Seed Pitch Deck

Embedded business insurance for US small businesses.

Tidewell lets small business owners buy general liability and property cover in minutes, directly inside the software they already use to run their business.

The Problem

Small business owners spend weeks getting commercial insurance quotes through brokers.

Many businesses end up underinsured because the process is slow and confusing.

Traction

As of June 30, 2026, 100 small businesses have registered on the Tidewell platform.

Registered businesses can request quotes online. Registration does not require buying a policy.

Average time from registration to first quote: 4 minutes.

Funding and Ask

We have raised $1.2M in pre-seed funding to date.

We are raising a seed round to expand from two states to five states.
